PERSONAL STATEMENT

I'm a final-year Ph.D. student in the Department of Electrical and Computer Engineering, at Stevens Institute of Technology, advised by Prof. Hao Wang. I received my Master's Degree in Computer Science and Systems at University of Washington Tacoma and my Bachelor's Degree in Electronic Engineering at Shanghai Jiao Tong University. I was a Research Intern at Microsoft M365 Research (Systems Innovation Research Group) in summer 2025, and a Research Intern at Microsoft Azure Research (Azure Research Systems) in summer 2024.

My research interests lie in **Serverless Computing**, **Large-Scale AI/ML Systems**, **LLM serving Systems**, and **Reinforcement Learning Systems**. I develop efficient serverless AI ecosystems that integrate cloud and HPC resources to optimize large-scale AI workloads. I received the **ACM SoCC'24 Best Paper Award** and the recognition of the **ACM/IEEE SC'24 Best Student Paper Finalist**. I was selected as one of the **2025 MLCommons ML and Systems Rising Stars**.
